

Hello, I am very upset with the FCC For allowing deregulation of television and radio stations ownerships. What you end up with is

warped information and uninformed people who have no idea what the truth is anymore. Sinclair corporation is a prime example. They wouldn't show Niteline Honoring war dead. Then they are going to air

anti Kerry propaganda two weeks before a crucial election. I am concerned about how much pull these rich people have on you at the FCC. Do your job'' please. democracy is at stake.

sincerely, John Frazier
